The York Wines 'Wine Taste Key'

Below are the symbols we use to categorise our wine so that you can easily identify its style.

White Wines

White wine, including Sherry, should be served cool but not over-chilled - overly cold wines taste and smell of nothing. For sweet and sparkling wines the correct temperature is between 6-8 degrees C. Dry, still white and rose should be served at 8-12 degrees C.

-  Bone dry like Chablis, Sancerre and Muscadet
-  Dry like New Zealand Sauvignon Blanc and unwooded Chardonnay
-  Not too dry like Cava, Gewuztraminer and oaked Australian Chardonnay
-  Medium like light German wine (e.g. Moselle) or Zinfandel Rose and Blush
-  Medium sweet like Liebfraumilch, Lambrusco and Vouvray
-  Semi-sweet like German Kabinetts, medium Sherry and sparkling aperitifs
-  Medium sweet like Pale Cream Sherry and Asti Spumante
-  Sweet like Cream Sherry and Port
-  Luciously sweet like Sauterne and Vin de Liqueur

Red Wines

Red wines should be served at room temperature (15-18 degrees C) with the exception of light wines (e.g. Grape A) which can be served slightly chilled (12-14 degrees C). Grape E wines can benefit from being opened 2-3 hours before serving and being decanted.

-  Very light wines low in tannins but with good acidity such as Beaujolais and Loire reds
-  Medium bodied wines with moderate tannins such as Burgundies or Bulgarian Pinot Noir
-  Firm, full-bodied wines such as Chianti Cassico, Rioja and Clarets
-  Rich, full-bodied wines such as Australian Shiraz Chateauneuf du Pape
-  Stonking full bodied red blockbusters, such as Australian, Californian boutique wines and the occasional specialist hand-crafted French or Italian

Rose Wines

Rose should be served at 8-12 degrees C

-  Light and delicate roses such as Provence or Sancerre Rose
-  Medium bodied roses such as the roses from Bergerac and Vin de Pays D'Oc
-  Fuller bodied roses such as roses from the New World
